- DEED BOOK 376 PG 349

The object of this survey was to establish the South line of the tract of land owned by the General Motors Corp. as described in Deed Book 376 Page 349 and to locate the existing structures on either side of this line. In an effort to locate the East line of Section 18 and the quarter corner there was some difficulty encountered in satisfying the five recorded surveys and plats as noted. The section line as established fits closely as possible all the surveys involved. All iron pins found and the offsets to the section line are shown on this survey.
